Flash point > 85°

MANUAL :

Spray on the task.

Pat the stain or lightly rub it to break it and penetrate the molecular structure to dissolve it. Leave to act for 5 to 10 minutes. Pre-brush to strengthen with any other pre-brush according to the Aqua system used (CYTEX for example). Put in machine without delay. Repeat the operation if the stain background persists. On a fragile item (silk), do a test beforehand and do not allow it to act for more than a few minutes (risk of residual halos of products)

Repeat the operation if necessary.
